

Through eCaseManager™, HDI offers law enforcement agencies on the local and state levels one of the most advanced electronic case management systems available.

eCaseManager™ is fully adaptable to any law enforcement agency, no matter how large or how small.

eCaseManager™ Features

For Investigators

- File-based system
- Complete forms package
- All investigative action incorporated into case file
- Attach all forms of electronic media: digital audio and video, digital photos, scanned documents
- E-mail alerts for assigned cases and tasks
- Visual alerts on task deadlines
- Electronic submission of all documents for approval
- Bar coding of evidence
- Print entire case as a PDF file with one function
- Capable of ordering all case documents before printing
- All case documents and attachments can be disseminated in electronic format
- Wide range of search functions
- Master name index
- Home page offers at-a-glance caseload/workload
- Ad hoc reporting capabilities
- Automatic report generation

For Supervisors

- Ability to assign tasks and cases to individual users
- Monitor case progress
- Approve/Disapprove case documents and attachments with comments
- View all case documents, attachments and electronic media
- Manage subordinates' caseloads from front page

For System Administrators

- Build and edit chain of command
- Ability to manage users, passwords and roles
- Hosted system or installed on departmental servers
- Capability of sharing pointer system with other client agencies using HDI's hosted system

COMPLETE SOLUTION

While many other case management systems currently available in the marketplace stop short by only providing investigative case management, eCaseManager™ offers agencies the additional benefit of optional comprehensive case management services encompassing all law enforcement activities. In addition to the base system, agencies may choose to add the following services:

- Jail Management
- Warrant Processing
- Personnel Management
- Pistol Permits
- Arrest Reports
- Civil Papers

SUMMARY

eCaseManager™ is a technologically-advanced system that provides the law enforcement community a comprehensive solution for all records management needs. For more information or to schedule a demonstration, contact Major Patrick Manning (Ret), Director of Public Safety Business Development at 334.466.3076.
